

Plays like Bocce Ball  
in the water!

# Water Bocce Game 2007 The Water Game

2007  
Game of the Year Finalist  
- TD Monthly

The floating beach ball mat is thrown like a Frisbee onto the surface of the water (it is now the target). Players skip/skim their Riebee discs onto or near the target. Points are scored by the players that get closest to the dot on the beach ball mat. Players re-throw and continue play. Includes: Game instructions, 4 floating water skipping discs and 1 floating target.

"The Water Game" plays like the Water Bocce Game, but the carrying case (pouch) is thrown onto the water surface and becomes the target. Players re-throw and continue play. When the game is finished, the pouch stores the 4 Riebee water discs. Includes: Game instructions, 4 floating water skipping discs, and 1 floating pouch.
